greater than or equal to the score of the result being printed,
derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                                                                                                                                                                           (without alignments)
75.615 Million cell updates/sec
